# INTRODUCTORY SECTION

February 28, 2017

Honorable Mayor, Members of the City Council, City Manager, Residents Frisco, Texas

The Financial Services Department is pleased to submit the Comprehensive Annual Financial Report (CAFR) of the City of Frisco, Texas (the City), for the year ended September 30, 2016, in accordance with Section 7.18 of the City Charter.

This report is published to provide our residents, our bondholders, the City Council, staff and other interested parties with detailed information concerning the financial condition and activities of the government. Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements. We also believe that all disclosures necessary to enable the reader to gain the maximum understanding of the City's financial affairs have been included.

Weaver and Tidwell, LLP, Certified Public Accountants, has issued an unmodified ("clean") opinion on the City of Frisco's financial statements for the year ended September 30, 2016. The report of independent auditors is located at the beginning of the financial section of this report.

This letter of transmittal is designed to compliment Management's Discussion and Analysis (MD&A) and should be read in conjunction with it. The MD&A can be found immediately following the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements.

#### **City Profile**

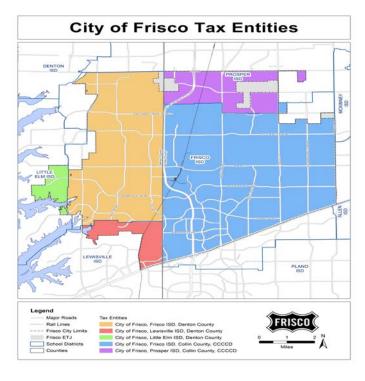

The City of Frisco, incorporated in 1908, is located in west central Collin County and east central Denton County, approximately 25 miles north of downtown Dallas at the intersection of Dallas North Tollway (DNT) and State Highway 121, now known as Sam Rayburn Tollway (SRT). US Highway 380 is the northern border for the City. Frisco is readily accessible via SRT from the Dallas Fort Worth International Airport or via the DNT from Love Field Airport in Dallas. The City currently encompasses (incorporated and unincorporated) 70 square miles which is approximately 62% developed.

We continue to experience population growth. Our population was 332 in 1910, 1,184 in 1960, 6,138 in 1990, 33,714 in 2000 and 116,989 by the 2010 census date. On October 1, 2016, the population was estimated to be 158,180. The City has experienced a 4.7% growth rate during 2016 or about 6,000 additional new residents.

Frisco is a political subdivision that operates as a home-rule city under the laws of the State of Texas and a charter approved by the voters in 1987 and amended in 2002 and 2010. The government is empowered to levy a property tax on both real and personal property located within its boundaries. The government also has the power by state statute to extend its corporate limits by annexation, which is done periodically when deemed appropriate by the Council.

The City operates under the Council/Manager form of government. Policy-making and legislative authority are vested in the governing council, which consists of a Mayor and a six-member Council. The governing council is responsible for, among other things, passing ordinances, adopting the budget, appointing committees, and hiring the government's manager, attorney and municipal judge. The City Manager is the chief administrative officer. He is responsible for carrying out the policies and ordinances of the council, for overseeing the day-to-day operations of the government, and for appointing the heads of the government's departments. The Council is elected on a non-partisan basis. Council members are elected to three-year staggered terms, with two council members elected every year. The Mayor is elected to three-year terms. The Council members and the Mayor are elected at-large, and are limited to three consecutive elective terms.

Other taxing entities operating within Frisco include school districts, the county and college. Overlapping property tax rates for these taxing entities within the City range from \$2.18200 to \$2.43696 (see page 148) depending on which County and which school district the property is located.

#### **Financial Reporting**

The financial reporting entity (the government) includes all the funds of the primary government. Services that are provided have proven to be necessary and meaningful and are those that the City can provide at the least cost. The government provides a full range of services including police and fire protection; emergency ambulance service; environmental health; sanitation services; community development; building inspections; traffic control; parks and libraries; the construction and operation of water, sewer, drainage, streets and infrastructure; convention and tourism activities, and cultural events. Additionally, general administrative services are provided by the City.

Discretely presented component units are legally separate entities and not part of the primary government's operations. Accordingly, the Frisco Economic Development Corporation, the Frisco Community Development Corporation and the City of Frisco Charitable Foundation are included in the financial statements as discretely presented component units.

The Council is required to adopt a final budget by no later than the close of the fiscal year. The annual budget serves as the foundation for the City's financial planning and control. All departments are required to submit requests for appropriation to the City Manager's office on or before June 15 each year. These requests are used to develop a proposed budget. The proposed budget is then presented to the City Council for review on or before August 15. The City Council is required to hold public hearings and to adopt a final budget no later than September 30, the close of the City of Frisco's fiscal year. The budget is prepared by fund, function (e.g., public safety), department (e.g., police), division (e.g., patrol), and object (e.g., expense). Transfer of appropriations within a department may be made with approval of the Department Head. Transfers within funds may be made with approval of the City Manager. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted.

Financial reports are produced showing budget and actual expenditures by line item, and are available electronically monthly for City department and division managers review. Finance staff analyze for budgetary compliance by line item. Personnel expenditures are monitored and controlled at a position control level and capital expenditures are monitored and controlled by project. Revenue budgets are reviewed monthly.

#### **Local Economy**

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City operates.

Data from the U.S. Census Bureau's 2014 and 2015 American Community Survey shows Frisco's median household income of \$123,055 is considerably higher than \$61,644 for Dallas-Fort Worth-Arlington MSA and \$55,653 for Texas. Also, according to the survey, Frisco's residents are well-educated with 58.9% of adults age 25 or older having a bachelor's degree or higher level of education, compared to 32% for the Dallas MSA and 26.7% for Texas. The unemployment rate is 3.9% and the City Workforce estimate is 78,857. Approximately 60% of the workforce is in management, science or business fields, with 24% being sales and office and 9% attributed to the service industry.

Frisco is home to a diversified group of companies. The Frisco Economic Development Corporation (FEDC) continues implementing concepts identified in the Comprehensive Economic Development Strategy adopted in 2010. That strategy is undergoing a refresh and a new Comprehensive Economic Development Strategy will be adopted in 2017. The areas of industry focus are: Computers & Electronics, Medical Services, Telecommunications, Financial Services, Software & Media, Entertainment & Recreation and Renewable Energy. Also included in the strategy are four major focus goals for the FEDC:

- (1) Attract jobs and corporate relocation from outside the North Texas region;
- (2) Retain & expand local businesses;
- (3) Enhance Frisco's innovation culture through entrepreneurship;
- (4) Improve product readiness & competitiveness.

With this strategy, the FEDC facilitated 18 new projects during FY 2016, potentially filling or adding more than 11.9 million square feet, with a potential capital investment exceeding \$2.1 billion and potentially creating/retaining more than 16,000 jobs.

The chart below summarizes the projects and impact for the four quarters of FY 2016.

**Summary of FEDC Projects FY16** 

Quarter	Number of Projects	Potential Square Feet	Potential Capital Investment	Potential Direct Jobs Created/Retained	
Q1	3	10,352,900	\$ 1,702,850,000	14,976	
Q2	3	309,500	110,435,000	247	
Q3	5	379,327	100,700,000	420	
Q4	7	931,800	216,155,000	450	
Total	18	11,973,527	\$2,130,140,000	16,093	

Five companies relocated a corporate headquarters or regional headquarters operation to Frisco during 2016: Jamba Juice, Preferred Medical Imaging, Inc., Schneider Optical Machines, CalAtlantic Homes of Texas, and FM Global. Several existing companies also announced expansions of Frisco office space: Randstad Technologies, Professional Futsal League, LLC, and Valify Inc.

FEDC also facilitated new development during the year. HALL Group, broke ground on building 17 in HALL Park, a 162-acre office campus. The 12-story, speculative, Class A Office building offering 300,000 square feet of new office space is expected to open in late 2017. Texas Scottish Rite Hospital for Children broke ground on its North Campus located on 40 acres in Frisco. The 300,000 square foot ambulatory care center will include a conference center and 30 acres of parks & sports fields. The facility is expected to open in 2018.

The Frisco EDC announced plans for a new business park to help meet the demand for tech and flex office space, and to offer an option for companies looking to own and occupy their own buildings. Frisco Park 25's site plan is designed to be a high-end commercial development that includes 14 lots on 216 acres zoned for industrial and commercial use. Building uses in Frisco Park 25 will range from corporate and regional headquarters to light manufacturing, showroom, warehouse and distribution operations.

In 2016, the Dallas Cowboys moved into their world corporate headquarters building at The Star. Twenty acres of the development, called The Ford Center at The Star, opened in August 2016, and was developed through a public-private partnership. The city-owned, 12,000-seat indoor event center also serves as a training facility for the Dallas Cowboys and high school football stadium for Frisco ISD. Construction at The Star is also underway for a 300-room Omni Hotel, the nine-story Baylor Scott & White Sports Therapy & Research Center and retail development that includes more than a dozen restaurants.

The development partners of Frisco Station broke ground on a seven-story, speculative, class A office building offering 228,000 square feet of new office space. Construction is expected to be complete in late 2017. An innovative, four-brand, 600-room lifestyle hotel campus and multi-family, urban living development called 'Station House' were announced in 2016.

Our housing development continues to be robust with more than 2,100 new single family permits issued in 2016. The single family lots in the pipeline or approval process at December 31, 2016, total 7,214 with 44.7 % in Denton County and 55.3% of the lot inventory in Collin County. The multi-family and urban living mixed used projects in the pipeline total 6,805 units at December 31, 2016, with over 4,439 units under construction.

Frisco continues to be a destination location with venues and attractions that generate significant economic benefits to Frisco retailers, restaurants and hotels. On January 7, 2017, Frisco welcomed back the NCAA Division I Football Championship Game (FCS) at Toyota Stadium hosted by the Southland Conference, Hunt Sports Group and the City of Frisco. Toyota Stadium was also the location of a new, two-day country music festival called Off the Rails. The two-day event returns to Toyota Stadium in April 2017.

Frisco ISD, a public school district in Texas which serves the Frisco residents, continues to build new school facilities to accommodate growth, and opened four new campuses for the school year 2016-2017. There are 68 schools currently, including 40 elementary, 16 middle schools, 9 high schools and 3 special program centers. Frisco ISD's student enrollment as of October 28, 2016 was 55,924 students, with about 47.5% of those students being elementary age. School enrollment is projected to reach 66,000 students by 2021.

Looking forward, the City anticipates continued development interest and investment as our business attraction and retention efforts, as well as our schools, public safety, infrastructure and parks systems make Frisco one of the best places to relocate to grow a business and raise a family.

#### **Long-Term Financial Planning – Capital Improvement Program**

The City has a five-year financial plan including staffing requirements and a five-year capital improvement plan. We monitor our assessed property values, sales tax collections, and building permit starts, and encourage and provide incentives for new and updated opportunities to sustain our City's financial economy. In May 2015, Frisco residents approved a \$267,825,000 bond package to continue the Capital Improvement Program (CIP).

Major capital improvement projects under design or currently under construction include:

**Street and Utility projects:** 4<sup>th</sup> Army Memorial, Custer Road (FM 2478), Dallas Parkway, Main Street (FM423 to DNT), Preston Road Intersection Improvements, Rockhill Road (CR26 to Dallas Parkway), Roundabout at Warren Parkway and Ohio Drive, Teel Parkway, Traffic Signal Installations and Arterial Street Light improvements;

**Facilities projects**: City Hall/Library/Court Expansion, Fleet Center Facility, Senior Center, Police Headquarters Parking Facility, Fire Equipment and Facilities;

**Parks projects:** Grand Park, various Trails that will connect schools to neighborhood parks and roadways, Cottonwood Creek Linear Park, Northeast Community Park, Plum Creek Park, Wranglers Range Park, and a partnership with FISD to install turf in various locations:

Stormwater projects: Creek Master Plans and Cottonwood Branch Utility;

**Water & Sewer Utility projects:** Dallas Parkway Waterline, Stonebrook/FM 423 Elevated Storage Tank, West Rowlett Creek Wastewater Main, Lebanon Wastewater Lift Station and Lone Star Lift Station Expansion.

Detailed information including an extensive project listing for current and planned projects can be found in the Annual Budget FY 2017 document beginning on page 309.

The City Council formed a Finance & Audit Committee in 2003 which meets on an asneeded basis to discuss financial and budgetary information for long-term planning, financial policies, fund balance reserve requirements and tax rate setting information.

Frisco continues a contracted service to provide internal control monitoring to provide a reasonable assurance of proper recording of financial transactions. We have developed a model which allows staff to evaluate risks and action plans for internal controls.

The City has recognized the long-term financial implications of its pension and retiree health benefits. Regarding pensions, we have adopted funding as proposed by the Texas Municipal Retirement System to ensure the long-term sustainability of the plan. For retiree health care, we provide an optional retirement health plan, fully funded by the retirees to meet their health care insurance coverage needs. We review plan designs on an annual basis to provide a sustainable benefit to our employees without shifting costs to future taxpayers and to comply with new federal laws and regulations.

#### **Relevant Financial Policies**

The City has adopted financial policies that set forth the basic framework for the fiscal management of the City. These policies are developed within the parameters established by applicable provisions of the Texas Local Government Code and the City Charter. The policies are reviewed on an annual basis and modified to accommodate changing circumstances or conditions.

None of the City's financial policies had a significant impact on the current period's financial statements, as the City was able to maintain reserve levels within the stated policies for the governmental funds. Constant review of revenue and expenditure trends and reserve levels is maintained with specific responsibility assigned to the Director of Financial Services.

#### **Major Initiatives**

The FY 2017 Approved Budget funding will allow us to continue implementing Council's strategies and priorities as adopted during 2016. As we developed the funding plan for FY17, special considerations were given to the growth which impacts operations and the special projects that we continue to manage. Our estimated population growth for FY17 is 4.8% or basically the same as FY16. Construction of residential, multi-family and mixed used developments, as well as our commercial corridor growth is unprecedented. Economic development projects continue to benefit the City with companies relocating or expanding in Frisco and providing new employment opportunities as discussed earlier in this letter. The design and development of the Hwy 380 Corridor continues as construction is underway on the roadway expansion and staff continues to meet with prospective developers for this area. Development Services staff have formed a citizen committee to review neighborhood design strategies as the City continues to build out.

Our efforts with State and Federal regulatory agencies concerning several major projects, including the Exide Battery Plant Closure and the Brazos Electric Bury the Lines on Main Street, continue with successful progress. The Grand Park design continues to be a major focus area for us, with funding approved to begin construction once all of the regulatory issues involving clean-up of Stewart Creek and permitting with the Army Corps of Engineers are resolved.

We continue addressing service demand with a total of 71 FTE in additional positions approved for FY 17, bringing our total personnel count to 1,501. Funding of \$2.9 million, for an average 3% merit for civilian employees or one step increase for public safety personnel was approved along with \$1.9 million for staffing market changes recommended by a Classification and Compensation Study completed during FY 16. Expenditures for capital outlay to replace equipment and police vehicles, as well as funds for several software and hardware replacements, library material acquisitions and the various new programs were included in the funding.

The City's Financial Services Department continued a Council directive for *Transparency in Government*. The monthly financial report which provides internal and external users with general awareness of the City's financial position and economic activity is published online. This report is presented to the City Council, usually the second meeting of the month. Also available on the website are City check registers, investment reports, historical budget and financial documents.

#### **Awards and Acknowledgements**

The Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Frisco for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended September 30, 2015. This was the sixteenth year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government unit had to publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report could not have been accomplished without the dedicated services of the entire staff of the Financial Services Department and our independent auditors. We would like to express our appreciation to staff of the other City departments who assisted and contributed to the preparation and publication of this report in any way. Special thanks are extended to members of the City Council and City Manager's Office for their leadership and support of professionalism and sound fiscal management.

Respectfully submitted,

# **FINANCIAL SECTION**

#### INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and Members of City Council City of Frisco, Texas

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of Frisco, Texas (the City) as of and for the year ended September 30, 2016, and the related notes to basic financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

The City's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

City of Frisco, Texas

Page 2

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City, as of September 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund and TIRZ #1 Fund, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis; Schedule of Changes in Net Pension Liability and Related Ratios and Schedule of Contributions; and the notes to the required supplementary information on pages 19 through 30 and 97 through 98 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund statements and schedules and other information such as the introductory section and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

#### City of Frisco, Texas

#### Page 3

The combining and individual fund statements and schedules, as listed in the table of contents, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated March 6, 2017, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City's internal control over financial reporting and compliance.

# MANAGEMENT'S DISCUSSION AND ANALYSIS

# CITY OF FRISCO, TEXAS MANAGEMENT'S DISCUSSION AND ANALYSIS SEPTEMBER 30, 2016

As management of the City of Frisco, (the City), we offer this narrative overview and analysis of the financial activities and financial position of the City for the fiscal year ended September 30, 2016. In the broadest context, the financial well being of a government lies in the underlying wealth and willingness of its citizens and property owners to pay adequate taxes combined with the vision of the government's elected and appointed leadership to spend those taxes strategically so the City's tax base, service levels, City assets and the City's desirability will be maintained; not just for the current year, but well into the future.

Financial reporting is limited in its ability to provide this "big picture", but rather focuses on financial position and changes in said financial position. In other words, are revenues and or expenses/expenditures higher or lower than the previous year? Has net position (containing both short and long term assets and liabilities) or fund balances (the current "spendable" assets less current liabilities) of the government been maintained? We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal (pages 1 - 8 of this report) and the statistical section (pages 135-164), as well as information on the City Council's Strategic Goals, the Annual Budget and other community information found on the City's website at <a href="www.friscotexas.gov">www.friscotexas.gov</a>.

It should be noted that the Independent Auditor's Report describes the auditor's association with the various sections of this report and that all the additional information from the website and other City sources is unaudited and has not been updated for events that may have occurred subsequent to the issuance of the respective report.

#### **FINANCIAL HIGHLIGHTS**

- The assets of the City of Frisco exceeded its liabilities at the close of the most recent fiscal year by \$1,484,234,615 (net position). The majority of the City's assets are invested in capital assets or restricted for specific purposes. The remaining \$91,117,333 is unrestricted and may be used to meet the government's ongoing obligations to citizens and creditors in accordance with the City's fund designation and fiscal policies.
- The City's net position for governmental activities increased by \$186,252,312 as a result of this year's operations. Net position of the City's business-type activities increased as a result of this year's operations by \$33,838,808.
- As of the close of the current fiscal year, the City of Frisco's governmental funds reported a combined ending fund balance of \$308,159,395. Approximately 17 percent of this total is available for spending at the City's discretion (unassigned).
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$52,310,008 or 41 percent of total general fund expenditures.
- The City of Frisco's total debt increased by \$50,184,687, 6.6 percent during the current fiscal year. The key factors in this change were the new bond issues during the year.

Management's Discussion and Analysis (continued) September 30, 2016

• The ad valorem rate for the City was \$.46 for fiscal year 2016. This tax rate supports debt service, operations and maintenance, and bond programs to construct infrastructure and city facilities.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the City of Frisco's basic financial statements. The City of Frisco's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required and other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements**. The *government-wide financial statements* are designed to provide readers with a broad overview of the City of Frisco finances, in a manner similar to a private-sector business.

The government-wide financial statements are prepared utilizing the economic resources measurement focus and the accrual basis of accounting. The *statement of net position* presents information on all of the City of Frisco's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of Frisco is improving or deteriorating. Other non-financial factors should also be taken into consideration, such as changes in the City's property tax base and the condition of the City's infrastructure (i.e. roads, drainage improvements, storm and sewer lines, etc.), to assess the overall health or financial condition of the City.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All of the revenues and expenses are taken into account as soon as the underlying event giving rise to the item occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes, pension contributions and earned but unused vacation leave).

In the statement of net position and the statement of activities, the City is divided into three kinds of activities:

- Governmental activities Most of the City's basic services are reported here, including
  police, fire, library, planning and development, traffic engineering, parks and recreation,
  public works, information technology services, finance, human resources and general
  administration. Property taxes, sales taxes, franchise taxes, charges for services and
  intergovernmental revenue finance most of these activities.
- Business-type activities Includes services for which the City charges a fee to customers to
  cover all or most of the cost of providing such services. The City's water and sewer system
  operations, stormwater operations and environmental services are reported as businesstype activities.
- Component units The City includes three separate legal entities in its report the Frisco
  Economic Development Corporation, the Frisco Community Development Corporation and

Management's Discussion and Analysis (continued) September 30, 2016

the City of Frisco Charitable Foundation. Although legally separate, these "component units" are included because the City is financially accountable for them.

#### **Reporting the City's Most Significant Funds**

**Fund financial statements.** The fund financial statements provide detailed information about the most significant funds – not the City as a whole. Some funds are required to be established by state law and by bond covenants. However, the City Council establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other monies. The City's two kinds of funds – governmental and proprietary – utilize different accounting approaches.

• Governmental funds – The majority of the City's basic services are reported in governmental funds, which focus on how money flows into and out of the funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method identified as the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. By comparing information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements, readers may better understand the long-term impact of the government's near-term financing decisions. The relationships or differences between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is detailed in a reconciliation following each of the governmental fund financial statements.

The City of Frisco maintains sixteen individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the general fund, tax increment refinancing zone fund (TIRZ), capital projects fund, and the debt service fund all of which are considered to be major funds. Data from the other twelve governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements starting on page 103 of this report.

Proprietary funds – The City charges customers directly for certain services it provides.
These services are generally reported in proprietary funds. Proprietary funds are reported in
the same way that all activities are reported in the Statement of Net Position and the
Statement of Activities. In fact, the City's enterprise funds (a component of proprietary
funds) are identical to the business-type activities that are reported in the government-wide
statements, but enterprise fund financial statements provide more detail and additional
information, such as cash flows.

The City of Frisco maintains three individual enterprise funds. The City uses enterprise funds to account for its water and sewer, storm drainage and environmental services activities. Only the water and sewer fund is considered to be a major fund of the City.

**Notes to the financial statements**. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Other information.** In addition to the basic financial statements and accompanying notes, this report presents certain required supplementary information concerning the City's progress in funding its obligation to provide pension benefits to the employees.

#### THE CITY AS A WHOLE - GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position and assets by category may serve over time as a useful indicator of the government's financial position. In the case of the City of Frisco, assets exceeded liabilities by \$1,484,234,615 as of September 30, 2016.

By far the largest portion of the City's net position (88 percent) reflects its investment in capital assets (e.g., land, infrastructure, buildings, machinery, and equipment); less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, the assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

#### City of Frisco Net Position September 30, 2016

Management's Discussion and Analysis (continued) September 30, 2016

An additional portion of the City's net position (6 percent) represents resources that are subject to external restrictions on how they may be used, including bond covenants. The remaining balance of unrestricted net position \$91,117,333 may be used to meet the government's ongoing obligations to citizens and creditors in accordance with the City's fund designation and fiscal policies.

As of September 30, 2016, the City is able to report positive balances in all three categories, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal years.

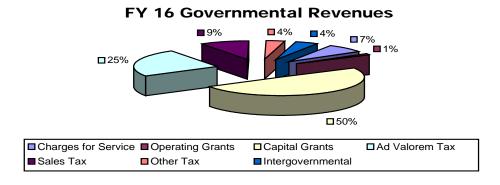

**Analysis of the City's Operations** – Overall the City had an increase in net position of \$220,091,120.

<u>Governmental activities:</u> Governmental activities increased the total net position by \$186,252,312 or 85% of the total growth. Net investment in capital assets increased by \$164,429,607 due to increases in capital investment (or projects completed during the year), net of increases in debt service. Unrestricted net position increased by \$13,379,233 due to an increase in program revenues. Restricted net position increased by \$8,443,472, primarily due to increases in capital projects and restricted fees to fund the projects.

Total revenues for governmental activities increased when compared to the prior year by \$75,441,358. General revenue had a net decrease of \$4,130,880, while program revenues had an increase of \$79,572,238. These were primarily due to the following factors:

General revenues: Property tax revenue includes an increase of \$12.3 million and is due to a combination of the increased value in existing property and the value generated by new improvements and annexations. Sales taxes increased \$1.8 million due to an increase in retail sales for the entire year. Franchise taxes and other taxes also increased. Intergovernmental revenues decreased \$19.5 million due to decreases in contributions from the component units for projects within the City.

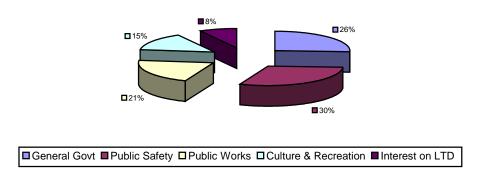

Program revenues: Charges for services increased during the year due to higher collections for various fees including recreational fees and building permits. Grants and contributions increased this fiscal year. Significant increases were seen in capital contributions due in part to the contributions recognized for several major capital projects.

Management's Discussion and Analysis (continued) September 30, 2016

Total expenses for governmental activities increased \$21.5 million or 11 percent. This increase is attributed to increases to provide services to the growing population base. General government expenses include a payment of \$13.2 million to Frisco Independent School District as part of the agreement with the TIRZ to provide property tax revenue generated in the TIRZ for school district construction expenses. Incurred expenses of \$66,878,782 were to provide public safety to the citizens of Frisco. These expenses were somewhat offset by the collection of revenues from various sources, including grant income and charges for services. Public works is a significant expense and provides roadway repairs and traffic control/signals for the citizens and expenses of \$46,082,286 were incurred. These expenses include depreciation for City infrastructure. Total salaries and benefits for the governmental activities totaled approximately \$89.7 million or 41% of the total, while depreciation expense totaled \$51.6 million or 23.4%.

**FY 16 Governmental Expenses** 

<u>Business-type activities</u>: Net position from business-type activities increased by \$33,838,808 accounting for the remaining total growth. Program revenues of the City's business-type activities were \$127,904,356 for the fiscal year. Operating expenses totaled \$92,605,715. The increase is affected by several factors, including the following:

The City's water and sewer system recorded charges for services of \$79,399,924 and impact fees and contributions of \$32,236,293. Revenues showed an increase during the year primarily due to capital contributions. Additionally, the growth of the customer base is also a contributing factor to the increases in revenues. Total operating expenses were \$78,892,654. The most significant expenses of the water and sewer fund were \$22,950,293 to purchase water, \$19,539,628 for the cost of sewage treatment, \$13,331,207 for depreciation and \$14,248,869 for salaries and benefits.

### THE CITY'S FUNDS

Governmental Funds - The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending in the next fiscal year.

At the close of the City's fiscal year on September 30, 2016, the governmental funds of the City reported a combined fund balance of \$308,159,395, an increase of \$61,743,811 in comparison with the prior year. Unassigned fund balance, which is available for spending at the government's discretion, constitutes \$52,310,008 of this balance. The remainder of fund balance is non-spendable, restricted, committed or assigned. 1) Non-spendable fund balances \$1,392,074 includes prepaids and inventories held by the government, 2) Restricted balances

includes bond proceeds restricted for capital projects \$172,112,814, reserves to pay debt service \$5,175,796, impact fee revenues restricted for capital project funding \$52,340,998, TIRZ #1 balances for other purposes \$4,094,973, and other special revenues restricted for a specific purpose \$4,266,371, 3) Committed funds included commitments made by resolution by the governing body for insurance reserves \$5,208,126, workforce housing programs \$477,708 and the capital reserve fund \$10,780,527.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, unassigned fund balance of the general fund was \$52,310,008, while total fund balance reached \$69,433,840. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 41% of total general fund expenditures, while total fund balance represents 55% of that same amount. The fund balance of the City's general fund increased \$9,444,480 during the current fiscal year attributed mainly to increases in actual revenues collected for sales tax, property tax, permits and recreation fees, while expenditures for most functional areas were less than originally budgeted.

The TIRZ #1 fund has a total fund balance of \$4,094,973. This amount is restricted for future projects within the zone.

The capital projects fund has a total fund balance of \$172,693,537, \$580,723 non-spendable for prepaid expenses and inventories. The fund balance represents unspent bond proceeds and intergovernmental revenue for roads, facilities and parks that has been received but not yet spent or recognized on specific capital projects. The increase in fund balance is due to debt issued during the fiscal year. The only revenue recognized is for interest earnings on bond proceeds and intergovernmental/developer agreements for shared costs projects.

The debt service fund has a total fund balance of \$5,175,796, all restricted for retirement of City debt. During the year, the City refinanced a portion of the City debt, resulting in a savings over time for this fund.

Proprietary Funds – The City of Frisco's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted Net position of the enterprise funds at September 30, 2016 totaled \$47,844,692. Other factors concerning the finances of these funds have already been addressed in the discussion of the business-type activities.

### **General Fund Budgetary Highlights**

For FY 2016, the City Council approved a final appropriation in September 2016 with the total amount of the appropriation equaling \$134.7 million including transfers out to other city funds. Amendments were made to reallocate funds appropriated to more accurately account for estimated revenues and expenditures.

With the budget amendments made during the fiscal year, the actual expenditures on a budgetary basis were \$126.3 million compared to the re-estimated (revised) budget amount of \$133.3 million. The \$7 million variance in total expenditures (excluding transfers out) is attributed to savings in the general fund for operational dollars budgeted but not required or expended by September 30.

The actual (on a budgetary basis excluding transfers in) revenues were \$135.4 million as compared to the re-estimated (revised) budget amount of \$134.3 million excluding transfers. The \$1.1 million variance in total revenues is attributed to increases over projections in permit fees, interest earnings and charges for services collections, with decreases under projections in property tax and franchise tax collections.

#### CAPITAL ASSETS AND DEBT ADMINISTRATION

**Capital assets.** At the end of the year, the City had \$2,504,220,306 invested in a broad range of capital assets, including land, buildings, park facilities, roads, bridges, water & sewer lines, police and fire equipment, and public works operating equipment and machinery. This amount represents a net increase (including additions and deductions) of \$268,602,036 over the prior fiscal year. Total accumulated depreciation for September 30, 2016, was \$670,379,682 for net capital assets of \$1,833,840,624.

Land purchased included park land along with various right-of-ways for roads and utilities. Improvements other than buildings include park construction projects and the developer contributions for road construction throughout the City, as well as traffic signals and lighting projects. Vehicles, machinery and some equipment were added during the year based on our equipment replacement schedule.

The City's 2017 Capital Project Multi-Year Budget calls for a continuation of the Capital Project Plan. Funding for several major roadway projects, Grand Park and other community parks, fire equipment, facility expansions and new construction and utility system infrastructure are included in the 2017 Plan.

Authorized bonds remain unissued from the 2006 Election and the 2015 Election.

In January 2016, the Frisco Community Development Corporation issued Sales Tax Revenue Bonds Series 2016A, in the amount of \$21,690,000 with a net premium of \$2,631,154 and Sales Tax Revenue Bonds, Taxable Series 2016B, in the amount of \$15,180,000. Proceeds from the sale of the bonds together with certain available funds of the Corporation will be used to construct improvements and renovations to the City's soccer stadium, and construct space to accommodate the Soccer Hall of Fame Facility.

In June 2016, the City issued General Obligation Refunding and Improvement Bonds, Series 2016, in the amount of \$120,615,000 with a premium of \$21,165,179. Proceeds for the sale of the refunding bonds of \$69,005,000 were used to advance refund a portion of the City's outstanding debt. Proceeds from the sale of the Improvement Bonds of \$51,610,000 are expected to be used for construction and equipping facilities for a community cultural arts and science center; constructing, improving and equipping public safety facilities; constructing and improving streets and roads, bridges and intersections; and constructing, improving and equipping parks, trails and recreational facilities and constructing and equipping a maintenance and administration building for the Parks Department.

In June 2016, the City issued Combination Tax and Limited Surplus Revenue Certificates of Obligation, Series 2016A, in the amount of \$17,065,000 with a premium of \$2,222,466. Proceeds from the sale of the Certificates will be used for constructing improvements and extensions to the City's combined Waterworks and Sewer System.

Also, in June 2016, the City issued Combination Tax and Limited Surplus Revenue Certificates of Obligation, Taxable Series 2016B, in the amount of \$20,500,000 with a discount of \$277,741. Proceeds from the sale of the Certificates will be used for constructing, acquiring and equipping two public parking garages located near the City's special events center.

Additional information regarding the City's outstanding debt can be found in Note 8 beginning on page 79 of the CAFR.

The City's assigned ratings for general obligation bonds and certificates of obligation bonds were as follows:

	Standard & Poor's	Moody's Investor
	Corporation	Services
General Obligation Bonds	AA+	Aa1
Certificates of Obligation Bonds	AA+	Aa1

This rating has been assigned to the City's tax-supported debt. The City is permitted by state law and provisions to levy taxes up to \$2.50 per \$100 of assessed valuation for general governmental services including the payment of principal and interest on general obligation long-term debt. The current ratio of general obligation debt to assessed value of all taxable property is 2.59%.

### **ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES**

The City's elected and appointed officials considered many factors when setting the fiscal year 2017 budget appropriation, tax rates, and fees that will be charged for the business-type activities.

Current economic indicators were taken into account when adopting the general fund budget. The FY 2017 combined budget appropriation totaled \$142.7 million. This represents an increase of \$8.7 million from the FY 2016 revised budgets, attributed to operating expenses increasing across all City departments.

The general fund's largest revenue source is property tax receipts. Ad valorem tax revenue is determined by two major factors: the total assessed value established by the Central Appraisal District of Collin County and Central Appraisal District of Denton County and the tax rate established by the Frisco City Council. For the new fiscal year, we saw an increase in valuations of 16.77%. We saw gains in new improvements of 5.62%, and a gain on existing property of 11.15%. According to final figures received from the CAD's, the total certified assessed property value for FY 2017 is \$24.2 billion. Council approved a tax rate of \$0.45 per \$100 of valuation a decrease from the FY 2016 tax rate.

As for the City's business-type activities, City projections indicate that the water and sewer fund unassigned net position will be approximately \$50.2 million. A fee increase for water sales and sewer services was approved and effective in January 2017. Appropriations are to be used for capital projects in the utility construction projects fund, operating expenses, and bond interest and fiscal charges.

### CONTACTING THE CITY'S FINANCIAL MANAGEMENT STAFF

This financial report is designed to provide our residents, taxpayers, customers, investors, and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the City's Finance Department at 6101 Frisco Square Blvd., 4<sup>th</sup> Floor Finance Office, Frisco, Texas 75034.

# Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the year ended September 30, 2016

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balance - total governmental funds	\$ 61,743,811
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay and developer's contributions exceeded	
depreciation in the current period.	176,541,307
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	40,430
The issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	(49,297,179)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	(2,776,057)
Change in net position of governmental activities	\$ 186,252,312

# CITY OF FRISCO, TEXAS NOTES TO THE BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2016

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Frisco, Texas ("City") was originally incorporated in 1908 and chartered on April 4, 1987, and is a municipal corporation incorporated under provisions of H.B. 901 of the Texas Legislature. The City operates under a Council-Manager form of government and provides such services as authorized by its charter to advance the welfare, health, comfort, safety, and convenience of the City and its residents.

The financial statements of the City have been prepared to conform with accounting principles generally accepted in the United States of America (GAAP) as applicable to state and local governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting and reporting policies and practices used by the City are described below.

### A. Financial Statement Presentation

The basic financial statements are prepared in conformity with GASB Statement 34, which requires government-wide financial statements to be prepared using the accrual basis of accounting and the economic resources measurement focus. Government-wide financial statements do not provide information by fund, but distinguish between the City's governmental activities, business-type activities and activities of its discretely presented component units on the statement of net position and statement of activities. Significantly, the City's statement of net position includes both non-current assets and non-current liabilities of the City. The government-wide statement of activities reflects depreciation expense on the City's capital assets, including infrastructure.

In addition to the government-wide financial statements, the City has prepared fund financial statements. Governmental fund financial statements use the modified accrual basis of accounting and the current financial resources measurement focus. The proprietary fund type financial statements are prepared using the accrual basis of accounting. Statement No. 34 requires supplementary information in Management's Discussion and Analysis, which includes an analytical overview of the City's financial activities. Also, a budgetary comparison statement is presented that compares the adopted and revised budgets for the general fund and its major special revenue fund (TIRZ1) with actual results.

### B. Reporting Entity

The City is governed by an elected mayor and a six-member council. As required by GAAP, these financial statements present the City (the primary government) and the entities for which the City is considered to be financially accountable (component units). Discretely presented component units are reported in a separate column in

the basic financial statements in order to emphasize that they are legally separate from the City.

The Frisco Economic Development Corporation (FEDC) serves all citizens of the City. Although legally separate from the City, the City Council appoints all of the members of its governing board. The FEDC provides marketing and economic development services to the City, and the City provides for custody and investment of FEDC assets, various administrative/personnel/legal services, and the majority of funding for the FEDC budget. The FEDC is presented as a discretely presented component unit.

The Frisco Community Development Corporation (FCDC) serves all citizens of the City. Although legally separate from the City, the City Council appoints all of the members of its governing board. The primary government has the ability to impose its will with the potential for financial benefit to the FCDC. The FCDC benefits the City and its citizens by developing resources to address recreational, cultural arts, senior citizen, and other related community development needs and the City provides for custody and investment of FCDC assets, various administrative services, and the majority of funding for the FCDC budget. The FCDC is presented as a discretely presented component unit.

The City of Frisco Charitable Foundation (CFCF) serves all citizens of the City. Although legally separate from the City, the City Council appoints all of the members of its governing board. The primary government has the ability to impose its will and the potential for financial benefit to the CFCF. The CFCF benefits the City and its citizens by developing resources to address recreational, cultural arts, senior citizen, and other related community development needs. The Foundation was established during fiscal year 2006 and is presented as a discretely presented component unit.

The FEDC, FCDC, and CFCF do not prepare separate financial statements. The financial statements of the City are formatted to allow the user to clearly distinguish between the primary government and it's discretely presented component units.

### C. Government-wide and Fund Financial Statements

The basic financial statements include both government-wide (based on the City as a whole) and fund financial statements. The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the primary government and its component units. For the most part, the effect of any interfund activity has been removed from these statements. Interfund services provided and used are eliminated in the process of consolidation. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The government-wide statement of activities demonstrates the degree to which the direct expenses of a functional category (General Government, Public Safety, Public

Works, and Culture/Recreation) are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, 2) grants and contributions that are restricted to meeting the operational requirements of a particular function or segment, and 3) grants and contributions that are restricted to meeting the capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The net cost (by function or business-type activity) is normally covered by general revenue (property taxes, sales taxes, franchise taxes, intergovernmental revenues, and interest income).

Separate funds-based financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. GASB Statement No. 34 sets forth minimum criteria (percentage of assets, liabilities, revenues or expenditures/expenses of applicable fund category and for the governmental and enterprise combined) for the determination of major funds. The non-major funds are combined in a separate column in the applicable fund financial statements.

### D. Measurement Focus and Basis of Accounting

The government-wide financial statements and the proprietary fund statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when the obligation has matured and is due and payable shortly after year end.

GASB Interpretation 6 clarifies the application of modified accrual recognition of certain liabilities and expenditures in the governmental fund financial statements. Specifically, GASB Interpretation 6 indicates that liabilities for debt, compensated

absences, claims and judgments, and special termination benefits are normally expected to be liquidated with expendable available financial resources and should be recognized as governmental fund liabilities and expenditures only to the extent that they mature each period. The most significant accounting and reporting policies of the City are described in the following notes to the financial statements.

Ad valorem, franchise, sales tax revenues and fines and forfeitures recorded in the General Fund and ad valorem tax revenues recorded in the Debt Service Fund and Tax Increment Reinvestment Zone #1 are recognized under the susceptible to accrual concept. Licenses and permits, charges for services, contributions, and miscellaneous revenues are recorded as revenues when received in cash, as the resulting receivable is not measurable and available until cash is received. Investment earnings are recorded as earned since they are measurable and available. In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. Intergovernmental grant revenues are recognized when all eligibility requirements have been met and amounts are considered measurable and available. Funds received in advance for which all eligibility requirements have not been met are considered unearned revenue. Funds received for which amounts are not considered measurable and available are considered deferred inflows of resources.

Proprietary fund statements of revenues, expenses, and changes in fund net position present increases (e.g., revenues) and decreases (e.g., expenses) in net position. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's Water and Sewer, Environmental Services and Stormwater funds are charges to customers for sales and services. Operating expenses for the proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The City of Frisco does not utilize internal service funds, which traditionally provide service primarily to other funds of the government. Nor does the City of Frisco have fiduciary funds.

The government-wide focus is more on the sustainability of the City as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. The focus of the fund financial statements is on the major individual funds of the governmental and business-type categories. Each presentation provides valuable information that can be analyzed and compared to enhance the usefulness of the information.

The following funds are used by the City of Frisco:

### 1. Governmental Funds:

The focus of Governmental Fund measurement (in the Fund Financial Statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the major Governmental Funds of the City:

- General Fund accounts for several of the City's primary services (Public Safety, Public Works, Culture & Recreation, General Government) and is the primary operating fund unit of the City.
- b. Tax Increment Reinvestment Zone Fund #1 accounts for revenue sources that are legally held for special purposes within the zone. The revenue sources consist of property tax collections within the zone and lease payments for facilities.
- Capital Projects Fund accounts for the acquisition of capital assets or construction of major capital projects not being financed by proprietary funds.
- d. Debt Service Fund accounts for the accumulation of resources and payment of general obligation and certificate of obligation bond principal and interest from governmental resources.
- e. Other Governmental Funds is a summarization of all of the non-major governmental funds.

### 2. Proprietary Funds:

The focus of Proprietary Fund measurement is upon determination of operating income, changes in net position, and cash flows, which is similar to private-sector businesses. The following is a description of the major Proprietary Funds of the City:

- a. Water and Sewer Fund accounts for the operation of the City's water and sewer utility. Activities of the Fund include administration, operation and maintenance of the water and sewer system, and billing and collection activities. The Fund also accounts for the accumulation of resources for, and the payment of, long-term debt principal and interest for contractual obligation bonds when due throughout the year. All costs are financed through charges made to utility customers with rates reviewed regularly and adjusted if necessary to ensure integrity of the Fund.
- b. Other Proprietary Funds is a summarization of the non-major proprietary funds including the stormwater drainage program and the environmental services fund.

### E. Cash, Cash Equivalents and Investments

Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with a maturity date within three months of the date acquired by the government. Cash in all funds, excluding the City's payroll account, lockbox operations, police seizure accounts and Charitable Foundation account, is combined into one bank account in order to maximize investment opportunities. Although individual funds may experience temporary overdraft liabilities, a positive balance is maintained in combined cash.

All investments are recorded at fair value based on market prices. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties.

### F. Inventories and Prepaid Items

Inventories of supplies are maintained at the City. These inventories are valued at cost using the first in/first out (FIFO) inventory method. The cost of inventories is recorded as expenditures/expenses when consumed rather than when purchased. Prepaid items are payments made by the City in the current fiscal year to provide services occurring in the subsequent fiscal year. Inventories and prepaid items are recognized as non-spendable in the governmental funds in the fund level financial statements to signify that a portion of fund balance is not available for other subsequent expenditures.

### G. Interfund Transactions and Receivables and Payables

Short-term advances between funds are accounted for in the appropriate interfund receivable and payable accounts. All legally authorized transfers are appropriately treated as transfers and are included in the changes in fund balance/net position of both governmental and proprietary funds.

### H. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in proprietary fund financial statements.

All purchased capital assets are valued at cost where historical records are available or at an estimated cost where no historical records exist. In the case of the initial capitalization of infrastructure assets (i.e., those reported by governmental activities), the City chose to include all such items regardless of their acquisition date or amount. The City was able to estimate the historical costs of these assets through back trending (i.e., estimating the current replacement costs of the infrastructure to be capitalized and using an appropriate price-level index to deflate the costs to the acquisition year or estimated acquisition year). Contributed assets are recorded at estimated fair value at the time received. The City considers the asset as received when all requirements have been met by the developer including providing the City with affidavits of value. Public domain (infrastructure) assets consisting of roads, bridges, curbs and gutters, streets and sidewalks, drainage systems, and lighting systems have been recorded at estimated historical cost. The City defines capital assets as assets with an initial individual cost of \$5,000 or more and an estimated useful life greater than one year. Outlays for capital assets and improvements are capitalized as the projects are constructed.

Capital assets of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives:

Buildings	20-25 years
Improvements other than Buildings	15-30 years
Vehicles	3-15 years
Machinery & Equipment	3-20 years

The costs of normal maintenance and repairs that do not materially add to the value of the asset or significantly extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related assets, as applicable.

# I. Compensated Absences

The City allows employees to accumulate earned but unused vacation benefits to a maximum of 240 hours. Fire Department personnel have a maximum of 360 hours. Vested or accumulated vacation leave of proprietary funds is recorded as an expense and liability of those funds as the benefits accrue to employees. In accordance with the provisions of GASB Statement No. 16, *Accounting for Compensated Absences*, no liability is recorded for nonvesting accumulating rights. Upon termination, the City pays to employees with over one year of service, up to a maximum of 240 hours of vacation, and up to 240 hours of sick leave. Fire Department personnel are paid up to a maximum of 360 hours for vacation and 360 hours for sick leave. Vacation and sick leave in excess of the 240 (360 for Fire Department personnel) hour maximum is not paid upon termination. All compensated absences are accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured and typically, in prior years the general fund has liquidated the liability.

#### J. Federal and State Grants

Grants and shared revenues are generally accounted for within the Grants Fund or Community Development Block Grants Funds if funding is for a governmental fund type. Federal grants include several police, fire and transportation related grants which are accounted for within the Grants Fund. Community Development Block Grants are accounted for within that fund. Various state grants are also included in the Grants Fund. Proprietary fund grants are accounted for within the applicable fund.

# K. Long-term Debt

General Obligation Bonds and Certificate of Obligation Bonds issued for general government capital projects that are to be repaid from tax revenues of the City are recorded in the government-wide statement of net position. Bond premiums and discounts are amortized over the life of the bonds using the straight-line method in the proprietary fund and the government-wide financial statements. Bond issuance costs are expensed. Bonds payable are reported net of the applicable bond premium or discount. In the governmental fund financial statements, issuance costs, as well as bond premiums and discounts, are recognized when incurred.

Certificate of Obligation Bonds have been issued to fund capital projects of the Proprietary Funds. Such bonds are to be repaid from the net revenues of the applicable Proprietary Fund. Bond premiums and discounts are amortized over the life of the bonds using the straight-line method. Bond issuance costs are expensed.

# L. <u>Deferred Inflow and Deferred Outflow of Resources</u>

Deferred inflows of resources are an acquisition of net position by the City that is applicable to a future reporting period. Deferred inflows have a negative effect on net position, similar to liabilities. The City of Frisco reports deferred inflows of resources as the offset account to assets received, but not vet available or earned. Outflows of resources are defined as a consumption of net position by the government that is applicable to a future reporting period. Deferred outflows of resources increase net position, similar to assets. For current refundings and advance refundings resulting in defeasance of debt, the difference between the reacquisition price and the net carrying amount of the old debt that results in a refunding loss, is reported as a deferred outflow of resources. The deferred outflows of resources are recognized as a component of interest expense in a systematic and rational manner over the remaining life of the old debt or the life of the new debt, whichever is shorter. For pensions, deferred outflow of resources are recognized for pension contributions made after the plan year reporting date and for investment experience amortization. Deferred inflows of resources for the pensions are the difference between actuarial experience and actual experience. The City of Frisco deferred outflows of resources and deferred inflows of resources changes for the year are detailed below:

		Balance 9/30/2015	Additions	De	eletions	Balance 9/30/2016
Deferred outflows	3					
Governmental						
activities		\$20,781,754	\$17,413,715	\$ 8	3,851,173	\$29,344,296

To	otal	\$(1,355,206)	\$(1,534,286)	\$	202,500	\$(2,686,992)

#### M. Retirement Plans

For purposes of measuring the net pension liability, pension related deferred outflows and inflows of resources, and pension expense, City specific information about its Fiduciary Net Position in the Texas Municipal Retirement System (TMRS) and additions to/deductions from the City's Fiduciary Net Position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. Information regarding the City's Total Pension Liability is obtained from TMRS through a report prepared for the City by TMRS consulting actuary, Gabriel Roeder Smith & Company, in compliance with Governmental Accounting Standards Board (GASB) Statement No. 68, Accounting and Financial Reporting for Pensions.

# N. Fund Equity

In order to comply with the Governmental Accounting Standards Board's (GASB) Statement No. 54, *Fund Balance Reporting and Government Fund Type Definitions*, the fund balance section of the balance sheets of the governmental funds include the following items:

- Nonspendable fund balance include the:
  - Portion of net resources that cannot be spent because of their form,
  - Portion of net resources that cannot be spent because they must be maintained intact.
- Restricted fund balance (externally enforceable limitations on use) include amounts subject to:
  - Limitations imposed by creditors, grantors, contributors, or laws and regulations of other governments
  - Limitations imposed by law through constitutional provision or enabling legislation.
- Committed fund balance (self imposed limitations set in place prior to the end of the period):
  - Limitation imposed at the highest level of decision making (an approved resolution) that requires formal action at the same level to remove. For the City, the City Council is the highest level of decision making and approves any commitments by resolution of the Council, which is considered the most binding constraint for fund balance classification purposes.
- Assigned fund balance consists of amounts where the:
  - Intended use is established by the body designated for that purpose (City Council),
  - Intended use is established by official designated for that purpose. The City Manager, Assistant City Manager and Director of Financial Services are the designated officials set by ordinance.
- Unassigned fund balance is the total fund balance in the general fund in excess of nonspendable, restricted, committed and assigned.

For the classification of governmental fund balances, the City considers an expenditure to be made from the most restrictive first when more than one classification is available. Net position restricted for impact fee collections in the Water and Sewer fund is a reserve required by the fee ordinance.

### O. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, deferred outflows of resources, deferred inflows of resources and contingent assets and liabilities as of the balance sheet date and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

#### P. Restricted Resources

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as required.

#### Q. Encumbrances

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting—under which purchase orders, contracts, and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation—is utilized in the governmental fund types. Encumbrances outstanding at year-end are reported as assignments of fund balances and do not constitute expenditures or liabilities because the commitments will be honored during the subsequent year.

#### R. New Accounting Pronouncements

In the current year the City implemented the following GASB pronouncements:

GASB Statement No. 72, Fair Value Measurement and Application, addresses accounting and financial reporting issues related to fair value measurements. The definition of fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This Statement provides guidance for determining a fair value measurement for financial reporting purposes. This Statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements.

GASB Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68, is to improve the usefulness of information about pensions included in the general purpose external financial reports of state and local governments for making decisions and assessing accountability. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating

additional transparency.

GASB Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments.* The objective of this Statement is to identify—in the context of the current governmental financial reporting environment—the hierarchy of generally accepted accounting principles (GAAP). The "GAAP hierarchy" consists of the sources of accounting principles used to prepare financial statements of state and local governmental entities in conformity with GAAP and the framework for selecting those principles.

GASB Statement No. 79, Certain External Investment Pools and Pool Participants. This Statement addresses accounting and financial reporting for certain external investment pools and pool participants. Specifically, it establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes.

The GASB has issued the following statements which will be effective in future years as described below. The impact on the City's financial statements of implementation has not yet been determined for the following:

GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans is effective for fiscal years beginning after June 15, 2016. The objective of this Statement is to improve the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability.

GASB Statement No. 75 Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions is effective for fiscal years beginning after June 15, 2017. The objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities.

GASB Statement No. 77, *Tax Abatement Disclosures* is effective for reporting periods beginning after December 15, 2015. This Statement requires disclosure of tax abatement information about (1) a reporting government's own tax abatement agreements and (2) those that are entered into by other governments and that reduce the reporting government's tax revenues.

GASB Statement No. 78, Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans is effective for reporting periods beginning after December 15, 2015. The objective of this Statement is to address a practice issue regarding the scope and applicability of Statement No. 68, Accounting and Financial Reporting for Pensions. This issue is associated with pensions provided through certain multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions.

# NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

# A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position

The governmental fund balance sheet includes reconciliation between *fund* balance – total governmental funds and net position – governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains the "long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds." The details of this \$706,567,249 difference are as follows:

Bonds and certificates of obligation payable	\$614,760,000
Bond discount (to be amortized as interest expense)	(684,162)
Bond premiums (to be amortized over the life of the bonds)	46,808,291
Accrued interest payable	3,523,169
Compensated absences	9,811,436
Net pension liability	32,348,515
Net adjustment to reduce fund balance – total	<u>\$706,567,249</u>
governmental funds to arrive at net position –	
governmental activities	

# B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes reconciliation between *net changes in fund balances* – *total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains, "Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of the \$176,541,307 difference are as follows:

Capital outlay	\$ 181,664,357
Developers' contributions	46,553,660
Book value of capital assets disposed/retired	(100,909)
Depreciation expense	(51,575,801)
Net adjustment to increase net changes in fund balance	<u>\$ 176,541,307</u>
<ul> <li>total governmental funds to arrive at changes in</li> </ul>	

net position of governmental activities

Another element of that reconciliation states that "the issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities." The details of this \$49,297,179 difference are as follows:

Debt issued or incurred:	
Premium amortization	\$ 7,272,515
Discount amortization	(125,411)
Amortization on loss of refunding of debt	(1,829,191)
Bonds issued and refunded	(64,765,907)
Bond premium issued	(20,691,926)
Bond discount issued	277,741
Principal repayments:	
Bonds	30,565,000
Net adjustment to decrease <i>net changes in fund balances</i> – total governmental funds to arrive at changes in net position of governmental activities	<u>\$ (49,297,179)</u>

Another element of that reconciliation states, "Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of this \$2,776,057 difference are as follows:

Increase in accrued interest on bonds	\$ (266,421)
Increase in compensated absences	(1,227,296)
Increase in pension expense	 (1,282,340)
Net adjustment to decrease net changes in fund balances	\$ (2,776,057)
<ul> <li>total governmental funds to arrive at changes in net</li> </ul>	
position of governmental activities	

#### NOTE 3. LEGAL COMPLIANCE - BUDGETS

## **Budgetary Information**

Annual appropriated budgets are legally adopted for the General Fund, Debt Service Fund, Capital Projects Funds, and Special Revenue Funds. The legal level of authority is at the fund level. The annual budget is adopted using the budgetary basis of accounting. The budgetary basis of accounting differs from accounting principals generally accepted in the United States in that encumbrances are recorded as expenditures in the period encumbered and not when incurred. All annual appropriations lapse at fiscal year end. Project length financial plans are adopted for certain Capital Projects Funds. The City follows these procedures in establishing the budgetary data reflected in the financial statements.

1. Prior to August 15, the City Manager submits to the City Council a proposed

- operating budget for the fiscal year commencing the following October 1.
- 2. Public hearings are conducted to obtain taxpayer comments.
- 3. Prior to September 30, the budget is legally enacted through the passage of an ordinance.
- 4. The City Manager is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the City Council.
- 5. Formal budgetary review is employed as a management control device during the year for the General Fund, Debt Service Fund, and Capital Projects Funds. Supplemental appropriations were made during the fiscal year, during the revised budget process.
- 6. The budget approved for the discretely presented component units follow similar approval procedures.
- 7. The budget approved for the Utility Fund follows similar approval procedures, but departs from generally accepted accounting principles by not including depreciation or compensated absence expenses in the approved budget.

#### NOTE 4. DEPOSITS AND INVESTMENTS

Deposits – State statutes require that all deposits in financial institutions be fully collateralized by U.S. government obligations or obligations of Texas and its agencies that have a market value of not less than the principal amount of the deposits. The City's deposits were insured up to \$250,000 or collateralized as required by State statutes at September 30, 2016. At year-end, the carrying amount of the City's demand deposits was a balance of \$5,156,319 - bank balance, \$9,076,395. The carrying amount of the component unit's pooled cash was (\$360,720), - bank balance, \$0. The cash on hand carrying amount totaled \$16,745. Additionally, cash held in escrow for land purchase for the component units was \$42,273,760 and is being held by an independent title company. The bank balance for the primary government and the component unit's deposits and certificates of deposits was covered by collateral with a fair value of \$33,283,181. The collateral is held in the City's name by the Bank of New York Mellon and the Texas Independent Banker, agents of the City's financial institution.

Investments – State statutes, city policies, and city resolutions authorize the City's investments. The Director of Financial Services and the Assistant Director of Financial Services are authorized by the City Council to invest all available funds consistent with the investment policy. The City is authorized to invest in United States obligations or its agencies and instrumentalities, direct obligations of the State of Texas or its agencies and instrumentalities, other obligations backed by the full faith and credit of the State of Texas or the United States or their respective agencies and instrumentalities, obligations of states, agencies, counties, cities, and other political subdivisions of any State having an investment rating of not less than "A" or its equivalent, fully collateralized repurchase agreements, certificates of deposit issued by a depository institution that has its main office or branch office in the State of Texas, money market mutual funds regulated by the Securities and Exchange Commission with a dollar weighted average portfolio maturity of 90 days or less, and local government investment

pools organized and operating in compliance with the Inter-local Cooperation Act.

As of September 30, 2016, the City had the following investments:

Investment Type	Fair Value	Weighted Average Maturity Days
Primary Government		
General Fund		
Federal Agency Notes	\$ 22,971,217	460
TexPool	11,216,541	44
TexStar	48,962,019	41
Wells Fargo Business	8,304	1
CIP Funds		
Federal Agency Notes	132,684,926	340
TexPool	4,870,093	44
TexStar	127,875,824	41

TexStar	2,169,146	41
Total Component Units	\$ 94,999,364	222
Total Government	\$587,385,964	112
Total Government	<u>Ψυοί, 3ου, 904</u>	112

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. GASB Statement No. 72, Fair Value Measurement and Application provides a framework for measuring fair value which establishes a three-level fair value hierarchy that describes the inputs that are used to measure assets and liabilities.

- Level 1 inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.
- Level 2 inputs are inputs-other than quoted prices included within Level 1-that are observable for an asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for an asset or liability.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. If a price for an identical asset or liability is not

observable, a government should measure fair value using another valuation technique that maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs. If the fair value of an asset or a liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level input that is significant to the entire measurement.

The City has recurring fair value measurements as presented in the table below. Investment balances of such investments are as follows:

			Fair Value Measurements Using				
Primary Government	C4			ed Prices Active kets for entical ssets	Significant Other Observable Inputs	Significan Unobserval Inputs	
	Sept	ember 30, 2016	(L	evel 1)	(Level 2)	(Level 3)

Certificates of deposit	\$ 5,031		\$	-	\$ -	\$	
Total cash and cash equivalents	5,031	,394		-	-		
Cash held for land purchase:							
Bank deposits	42,273	3,760		-	-		-
Total cash held for land purchase	42,273	3,760		-	-		
Investments measured at amortized costs: Investment pools: Texpool	16,013	3,027		-			-
Investments measured at net asset value (NAV), fair value: Investment pools: TexStar	29,150	),832		-	-		-
Investments by fair value level: U.S. government agency securities:							
Federal Home Loan Bank	9,009	•		-	9,009,261		-
Federal Home Loan Mortgage Corp	25,792	•		-	25,792,400		-
US Treasury Notes	10,002	•		-	10,002,450		
Total investments	89,967	,970		-	44,804,111		
Total cash and investments	\$ 137,273	3,124	\$	_	\$ 44,804,111	\$	

*Investment Pools* are measured at amortized costs or net asset value (NAV) and are exempt from fair value reporting.

*U.S. Government Agency Securities and U.S. Treasury Bonds and Notes* classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

The *Texpool* investment pool is an external investment pool measured at amortized cost. In order to meet the criteria to be recorded at amortized cost, the investment pool must transact at a stable net asset value per share and maintain certain maturity, quality, liquidity and diversification requirements within the investment pool The investment pool transacts at a net asset value of \$1.00 per share, has weighted average maturities of 60 days or less and weighted average lives of 120 days or less, investments held are highly rated by nationally recognized statistical rating organizations, have no more than 5% of portfolio with one issuer (excluding U.S. government securities), and can meet reasonable foreseeable redemptions. Texpool has a redemption notice period of one day

and may redeem daily. The investment pool's authority may only impose restrictions on redemptions in the event of a general suspension of trading on major securities markets, general banking moratorium or national state of emergency that affects the pool's liquidity.

The *TexStar* investment pool is an external investment pool measured at NAV. The strategy is to seek preservation of principal, liquidity and current income through investment in a diversified portfolio of short term marketable securities. The City has no unfunded commitments related to the pools. TexStar has a redemption notice period of one day and may redeem daily. The investment pool's authority may only impose restrictions on redemptions in the event of a general suspension of trading on major securities markets, general banking moratorium or national state of emergency that affects the pool's liquidity.

Interest Rate Risk – In order to minimize risk of loss due to interest rate fluctuations, the City's Investment Policy states investment maturities will not exceed the anticipated cash flow requirement of the funds as follows:

- Operating Funds The dollar weighted average maturity of 365 days or less will be calculated using the stated final maturity dates of each security and the maximum allowable maturity shall be two years.
- Bond Proceeds The maximum maturity for all bond proceeds shall be three years.
- Bond Reserve Funds Maturity limitation shall generally not exceed the call provision of the Bond Ordinance and shall not exceed the final maturity of the bond issue.
- Other Funds Maximum maturity shall not exceed five years and each fund's weighted average life shall not exceed three years.

Credit Risk – In compliance with the City's Investment Policy, and in conjunction with state law, as of September 30, 2016, the City minimized credit risk losses by limiting investment to the safest types of securities, pre-qualifying investments through our asset management company, and diversifying the investment portfolio so that potential losses on individual securities were minimized. The City'also invested in certificates of deposits at local banks as applicable. The City's investments in U.S. Agency securities (FHLB, FHLMC, and FFCB) are rated AAA by Standard & Poor's and Aaa by Moody's Investors Services. The City's investments in local government investment pools (TexPool and TexStar) are in compliance with the Public Funds Investment Act and rated AAAm by Standard & Poors. More than five percent of the City's investments are in Federal Home Loan Mortgage Corp (FHLMC), U.S. Treasury Notes, and Federal Home Loan Bank (FHLB). These investments are 23.85%, 8.35%, and 7.32%, respectively, of the total investments.

Concentration of Credit Risk – The City's formal investment policy does not address limitations to one particular issuer.

#### NOTE 5. RECEIVABLES

Receivables at September 30, 2016, for the government's individual major funds and non-major funds in the aggregate, including the applicable allowances for uncollectible accounts, are all considered to be collected within one year and consist of the following:

Governmental Activities	General	TIRZ #1	Capital Projects	Debt Service	Other Funds	Total
Property tax	\$ 662,326	\$ -	\$ -	\$440,281	\$ -	\$ 1,102,607

Less: allowance	(1,161,088)	-	=	(22,014)	=	(1,183,102)
Net receivables	\$12,881,049	\$399,224	\$659,789	\$418,267	\$ 2,251,142	\$16,609,471

	Water		
<b>Business-type Activities</b>	and Sewer	Other Funds	Total
Utility Bills	\$13,853,577	\$ -	\$13,853,577
Accrued interest	67,812	1,401	69,213
Other	621,237	6,953	628,190
Gross receivables	14,542,626	8,354	14,550,980
Less: allowance	(1,830,463)	-	(1,830,463)
Net receivables	\$12,712,163	\$8,354	\$12,720,517

Component Units	Community Development Corporation	Economic Development Corporation	Total
Sales tax	\$ 3,248,117	\$ 3,248,117	\$ 6,496,234
Accrued interest	28,833	37,115	65,948
Other	39,124	827,284	866,408
Net receivables	\$ 3,316,074	\$ 4,112,516	\$ 7,428,590

The Proprietary Fund accounts receivable includes unbilled charges for services rendered at September 30, 2016.

Property taxes are levied on October 1 and are payable until February 1 without penalty. Property taxes attach as an enforceable lien on property as of February 1. No discounts are allowed for early payment. Penalty and interest are calculated after February 1 up to the date collected by the City at the rate of 6% for the first month and increased by 1% per month up to a total of 12%. Under state law, property taxes on real property constitute a lien on the property and cannot be forgiven without specific approval of the State Legislature. The lien expires at the end of 20 years. Taxes applicable to personal property may be deemed uncollectible by the City. The City's current policy is to write off uncollectible personal property taxes after four years.

# **Notes Receivable City**

The City periodically issues bonds on behalf of the Frisco Community Development Corporation and Frisco Economic Development Corporation to fund various projects of these entities. Each component unit has an agreement with the City to fund the principal and interest payments of the bonds; therefore, a note receivable is reported in the government wide financial statements of the City from each component unit equal to the face amount of the bonds outstanding. At September 30, 2016, the balance of the note receivable from the Frisco Community Development Corporation was \$34,650,000. The balance of the note receivable from the Frisco Economic Development Corporation was paid off during 2016.

### **Notes Receivable Component Units**

In March 2006, the Frisco Community Development Corporation entered into an agreement to loan a developer \$300,000 to purchase land. The interest rate on the note is 5.00%. Annual payments of \$1 are due for a period of ten years, and an eleventh and final installment of all accrued and unpaid interest, together with principal is due on the tenth anniversary date. If the developer completes certain performance requirements, the entire balance of principal plus accrued interest will be forgiven on the due date of the eleventh installment or March 28, 2017 and it will only be recognized at the government-wide level. As of September 30, 2016, the note had a balance of \$300,000 and accrued interest of \$201,119.

In June, 2011, the Frisco Community Development Corporation executed a Performance Agreement and Promissory Note with a developer for \$400,000 for building improvements to a public facility being leased by the developer. The loan interest rate is 0.00%, and if the developer satisfies annual performance criteria, the loan will be forgiven over a period of ten years, ending in July, 2022. This note is only recognized at the government-wide level. The loan balance as of September 30, 2016 was \$240,000.

On July 31, 2009, the Frisco Economic Development Corporation entered into a Performance Agreement and Promissory Note for up to a maximum of \$525,000 for a sanitary sewer infrastructure improvement. Performance credits are to be applied as loan forgiveness, when proper documentation is provided to the City. On September 21, 2011, the Note maturity date was extended to August 1, 2016. On August 17, 2016 the note maturity date was extended again to August 1, 2018. The loan balance as of September 30, 2016 was \$108,388.

In December 2009, the Frisco Economic Development Corporation entered into a Performance Agreement and Promissory Note for \$570,803 with 5% interest due annually. The loan was paid as an advance with quarterly payments beginning March 31, 2011 and ending December 2014. In September 2011, the Agreement and Note were modified for quarterly payments to begin March 31, 2013 ending in December 2016. The balance of the loan at September 30, 2016 was \$30,824.

In April 2010, the Frisco Economic Development Corporation entered into an Agreement and Promissory Note for \$500,000 with 5% interest due by April 26,

2011. The note was extended and modified in April 2011, for an additional year. In April 2012, the Note was amended and the due date was extended to April 2013. On April 26, 2013, the Note was extended to October 26, 2014 and the Performance Agreement was modified to forgive the loan if certain requirements are met by October 26, 2014. On October 15, 2014 the note was extended to October 26, 2016. The balance of the loan at September 30, 2016 was \$500,000.

On October 2, 2012, a Performance Agreement and Promissory Note were executed by the Frisco Economic Development Corporation. Those documents were amended and restated on January 15, 2013. The \$750,000 loan consisted of 2 installments of \$375,000 each, payable over two years, beginning with Fiscal Year 2013. The loan is eligible for forgiveness credits, based upon the company's performance through December 31, 2022. The loan balance was \$475,000 at September 30, 2016.

On October 15, 2012, the Frisco Economic Development Corporation entered into a Performance Agreement and Promissory Note to provide \$200,000 in infrastructure improvements to a developer. The interest rate of the loan is 5% and the maturity date is September 30, 2016. In May, 2015, the maturity date of the note was extended to September 30, 2017. The loan is eligible for forgiveness credits upon completion of performance requirements. The balance of the loan was \$200,000 at September 30, 2016.

On August 28, 2014 the Frisco Economic Development Corporation entered into a Performance Agreement and Promissory Note loan to provide \$300,000 in advanced economic incentives. The \$300,000 was issued on December 4, 2014 at 0% interest with a maturity date of March 15, 2018. The note and performance agreement were amended on June 15, 2016 to extend the note maturity date to February 1, 2020. The loan is eligible for forgiveness credits upon completion of performance requirements. The balance of the loan on September 30, 2016 was \$170,000.

# NOTE 6. CAPITAL ASSETS

The following is a summary of changes in the capital assets during the fiscal year:

Governmental Activities	Balance 9/30/2015	Additions	Transfers	Retirements/Other Deductions	Balance 9/30/2016
Capital assets, not being depreciated: Land Construction-in-progress	\$ 239,083,442 253,890,155	\$ 4,735,117 173,522,632	\$ - (79,275,375)	\$ - (499)	\$243,818,559 348,136,913
Total capital assets, not being depreciated	492,973,597	178,257,749	(79,275,375)	(499)	591,955,472
Capital assets, being depreciated:

The City periodically issues bonds on behalf of the Community Development Corporation and Economic Development Corporation to fund various projects of these entities. These entities are component units of the City. Each component unit has an agreement with the City to fund the principal and interest payments of the bonds; therefore, a note payable is reported in the government wide financial statements of the component units to the City equal to the face amount of the bonds outstanding plus any bond premiums, discounts, and deferred loss from advance refunding of debt. The City is in compliance with related bond covenants.

At September 30, 2016, the balance of the note payable to the City from the Community Development Corporation was \$37,154,738. This includes \$34,650,000 in the note balance, \$2,579,715 of premium and \$74,977 of discount. The note payable to the City from the Economic Development Corporation was paid off in 2016. At September 30, 2016, the total notes payable to the City from the component units was \$37,154,738.

#### NOTE 8. LONG-TERM DEBT

General obligation bonds and certificates of obligation mature annually in varying amounts through 2041. The interest for these bonds are payable semi-annually with interest rates ranging from .90% - 7.375%. The City is in compliance with related bond covenants.

In January 2016, the Frisco Community Development Corporation issued Sales Tax Revenue Bonds, Series 2016A, in the amount of \$21,690,000 with a net premium of \$2,631,154 and Sales Tax Revenue Bonds, Taxable Series 2016B, in the amount of \$15,180,000. Proceeds from the sale of the Bonds together with certain available funds of the Corporation will be used to (i) construct improvements and renovations to the City's soccer stadium, including replacing and upgrading electronic message boards, signage, sound system and other electronic equipment, upgrading seating, and construction of space to accommodate the Soccer Hall of Fame facility; (ii) purchase a Surety Bond for each Reserve Fund for the Obligations, and (iii) pay the costs of professional services including the costs of issuance of the 2016A and 2016B bonds.

In June 2016, the City issued General Obligation Refunding and Improvement Bonds, Series 2016, in the amount of \$120,615,000 with a premium of \$21,165,179. Proceeds from the sale of the Refunding Bonds of \$69,005,000 were used to advance refund a portion of the City's outstanding debt, including \$40,485,000 in General Obligation, Series 2007, \$21,460,000 in Combination Tax and Limited Surplus Revenue Certificates of Obligation, Series 2008A; \$15,535,000 General Obligation Bonds, Series 2008; and \$845,000 Combination Tax and Limited Surplus Revenue Certificates of Obligation, Series 2009.

The net proceeds from the issuance of the bonds were used to purchase U.S. government securities which were deposited in an irrevocable trust with an escrow agent to provide debt service until the bonds are called in August 2016 – February 2019. The advance refunding was undertaken to reduce the total debt service payments by \$12,222,131 and resulted in an economic gain of \$10,130,117. An accounting loss of \$4,996,471 which will be deferred and amortized was recognized on this advanced refunding. The refunded bonds are considered legally defeased and the liability for the refunded bonds has been removed from the long-term debt. As of September 30, 2016, the amount of the defeased debt outstanding, but removed from long-term debts was \$78,325,000.

Proceeds from the sale of the Improvement Bonds of \$51,610,000 are expected to be used for (i) constructing and equipping facilities for a community cultural arts and science center; (ii) constructing, improving and equipping public safety facilities consisting of fire department facilities, parking for police headquarters building, public safety training facility, acquisition of fire trucks and equipment, acquisition of land and acquisition and installation of warning sirens; (iii) constructing and improving streets and roads, bridges and intersections; (iv) constructing, improving and equipping parks, trails and recreational facilities and constructing and equipping a maintenance and administration building for the parks and recreation department; and (v) paying

the cost associated with the issuance of the Bonds.

In June 2016, the City issued Combination Tax and Limited Surplus Revenue Certificates of Obligation, Series 2016A, in the amount of \$17,065,000 with a premium of \$2,222,466. Proceeds from the sale of the Certificates will be used for constructing improvements and extensions to the City's combined Waterworks and Sewer System, and paying the costs associated with the issuance of the 2016A Certificates.

Also, in June 2016, the City issued Combination Tax and Limited Surplus Revenue Certificates of Obligation, Taxable Series 2016B, in the amount of \$20,500,000, with a discount of \$277,741. Proceeds from the sale of the Certificates will be used for constructing, acquiring and equipping two City-owned public parking garages located near the City's special events and recreational center, and paying the costs associated with the issuance of the 2016B Certificates.

# NOTE 9. GRANTS PAYABLE

#### Retail Development Agreements

In order to promote economic development and diversity, increase employment, reduce unemployment and underemployment, expand commerce, and stimulate business and commercial activity in the State of Texas, Collin County, and the City of Frisco, Texas, the City, agreed to pay sales tax grants to certain developers. These grants require the construction of a minimum square feet of retail space and obtaining certificates of occupancy for certain major retailers within a specified time period, all of which have been met during the 2016 fiscal year.

A new retail development agreement was executed in December, 2005 for

approximately 200,000 square feet of retail space, which opened for business during April, 2007. The developer was awarded an economic development grant in accordance with the agreement in the amount of one-half of one percent (0.5%) of retail sales generated for a period of ten years. The City paid \$210,375 during the current year for this grant.

A new retail agreement was executed in January, 2011 for approximately 140,000 square feet of retail space which opened October, 2011. The City pays one half of one percent of retail sales generated for a period of ten years. The City paid \$314,725 during the current year of this grant.

An agreement was executed in May, 2013 for a retail sales center. The City pays eighty-five percent of one percent (.0085) of all retail sales generated for a period of twenty-five years. The City paid \$2,435,744 during the current year of this grant.

An agreement was executed in May, 2012 in which the City pays a rebate of incremental property taxes on improvements. This agreement is for five years. The City paid \$1,423 during the current year of this grant.

An agreement was executed in February, 2013 for use and property tax rebates. This agreement is for eleven years. The City paid \$68,159 during the current year of this grant.

An agreement was executed with the owner of an entertainment venue in April, 2013. This agreement includes a 50% rebate of property taxes for 10 years and one-half of one percent of sales and use taxes for five years. The City paid \$49,207 during the current year of the grant.

An agreement was executed in June 2013. This agreement includes a rebate of 50% of the city's incremental property taxes on improvements for 10 years. The City paid \$16,286 during the current year of the grant.

An agreement was executed in May, 2014 for infrastructure improvements. This agreement is for three years. The City paid \$91,664 during the current year of this grant.

An agreement was executed in June 2014 with a residential builder for a ten year period. Payments will be calculated based on 80% of the City's one percent of use tax levied on housing materials purchased. The City paid \$149,906 during the current year of this grant.

An agreement was executed in August 2014 with a residential builder for a ten year period. Payments will be calculated based on 80% of the City's one percent of use tax levied on housing materials purchased. The City paid \$11,517 during the current year of this grant.

An agreement was executed in April 2015 with a residential builder for a ten year period. Payments will be calculated based on 80% of the City's one percent of use

tax levied on housing materials purchased. The City paid \$25,381 during the current year of this grant.

An agreement was executed in August 2015 with a residential builder for a ten year period. Payments will be calculated based on 80% of the City's one percent of use tax levied on housing materials purchased. The City paid \$61,455 during the current year of this grant.

An agreement was executed with a residential homebuilder in October 2015. The agreement is for a ten year period. Payments are calculated based on 80% of the City's one percent of use tax levied on housing materials. The City paid \$15,657 during the current year of the grant.

### Planned Development Mixed Use Agreement

The City has an agreement for the development of thirty-six (36) acres into an urban mixed use community consisting of residential units, a 4-star hotel and a Class A high rise office building. The developer will receive rebates of incremental City property taxes paid on the improvements. The maximum grant amount of rebates for the improvements has a principal balance of \$3,000,000 bearing an interest rate of 4.75%, being repayable in three (3) annual installments of interest only and twenty-two (22) successive amortized annual installments of principal and interest. During the year ended September 30, 2016, the City rebated a total of \$166,874 for the property tax increment payment for 2015. The cumulative amount rebated through September 30 was \$986,908.

# NOTE 10. DEFERRED COMPENSATION PLAN

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan is administered by the International City Management Association Retirement Corporation (ICMARC). All assets and income are held in trust for the exclusive benefit of participants and their beneficiaries, and the City has no fiduciary responsibilities over the plan; therefore, it is not reported in the financial statements of the City.

The plan, available to all full-time City employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

#### NOTE 11. DEFINED BENEFIT PENSION PLAN

#### Plan Description-

The City of Frisco participates as one of 866 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of

Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401 (a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at <a href="https://www.tmrs.com">www.tmrs.com</a>.

All eligible employees of the city are required to participate in TMRS.

# Benefits provided-

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest and the city-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payment options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

Members can retire at ages 60 and above with five or more years of service or with 20 years of service regardless of age. A member is vested after five years. The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS and within the actuarial constraints also in the statutes. A summary of plan provisions for the City are as follows:

Employee deposit rate: 7%

Matching ratio (City to employee): 2 to 1

Years required for vesting: 5

Service retirement eligibility: 60/5, 0/20

Updated Service Credit: 100%

Annuity Increase to retirees: 70% of CPI Repeating

# Employees covered by benefits terms-

At the December 31, 2015 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	124
Inactive employees entitled to but not yet receiving benefits	360
Active employees	<u>1,009</u>
Total	<u>1,493</u>

#### Contributions-

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the city matching percentages are either 100%, 150% or 200%, both as adopted by the governing body of the city. Under the state law governing TMRS, the contribution rate for each city is determined annually by

the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarial determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City of Frisco were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rates for the City were 14.41% and 14.13% in calendar years 2015 and 2016, respectively. The City's contributions to TMRS for the year ended September 30, 2016 were \$10,290,995 and were equal to the required contributions.

### **Net Pension Liability-**

The City's Net Pension Liability (NPL) was measured as of December 31, 2015, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

# **Actuarial assumptions-**

The Total Pension Liability in the December 31, 2015 actuarial valuation was determined using the following actuarial assumptions:

Inflation 2.5% per year Overall payroll growth 3% per year

Investment rate of return 6.75%, net of pension plan investment

expense, including inflation

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment, with male rates multiplied by 109% and female rates multiplied by 103%. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment are used, with male rates multiplied by 109% and female rates multiplied by 103% with a 3-year set-forward for both males and females. In addition, a 3% minimum mortality rate is applied to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements subject to the 3% floor.

Actuarial assumptions used in the December 31, 2015, valuation were based on the results of actuarial experience studies. The experience study in TMRS was for the period December 31, 2010 through December 31, 2014. Healthy post-retirement mortality rates and annuity purchase rates were updated based on a Mortality Experience Investigation Study covering 2009 through 2011, and dated December 31, 2013. These assumptions were first used in the December 31, 2013 valuation, along with a change to the Entry Age Normal (EAN) actuarial cost method. Assumptions are reviewed annually. No additional changes were made for the 2014 valuation. After the Asset Allocation Study analysis and experience investigation study, the Board amended the long-term expected rate of return on

pension plan investments from 7% to 6.75%. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. In determining their best estimate of a recommended investment return assumption under the various alternative asset allocation portfolios, GRS focused on the area between (1) arithmetic mean (aggressive) without an adjustment for time (conservative) with an adjustment for time (aggressive). At its meeting on July 30, 2015, the TMRS Board approved a new portfolio target allocation. The target allocation and best estimates of real rates of return for each major asset class are summarized in the following table:

		Long-Term Expected Real Rate of Return
Asset Class	Target Allocation	(Arithmetic)
Domestic Equity	17.50%	4.55%
International Equity	17.50%	6.10%
Core Fixed Income	10.00%	1.00%
Non-Core Fixed Income	20.00%	3.65%
Real Return	10.00%	4.03%
Real Estate	10.00%	5.00%
Absolute Return	10.00%	4.00%
Private Equity	5.00%	8.00%
	100%	

#### **Discount Rate-**

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate was assumed that employee contributions and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the Total Pension Liability.

#### **Changes in Net Pension Liability**

	Increase (Decrease) Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) – (b)
Balance at 12/31/2014	\$168,353,704	\$137,708,186	\$30,645,518
Changes for the year:			
Service cost	12,146,969	-	12,146,969
Interest	12,134,224	-	12,134,224
Change in benefit terms	-	-	-
Difference between expected and actual			
experience	(320,688)	-	(320,688)
Change in assumptions	(1,452,583)	-	(1,452,583)
Contributions-employer	-	9,779,163	(9,779,163)
Contributions-employee	-	4,790,759	(4,790,759)
Net investment income	-	203,262	(203,262)
Benefit payments,		·	,
including refunds of			
employee contributions	(2,162,276)	(2,162,276)	-
Administrative expense	-	(123,767)	123,767
Other changes	-	(6,113)	6,113
Net changes	20,345,646	12,481,028	7,864,618
Balance as of 12/31/2015	\$188,699,350	\$150,189,214	\$38,510,136

#### Sensitivity of the net pension liability to changes in the discount rate

The following presents the net pension liability of the City, calculated using the discount rate of 6.75%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (5.75%) or 1 percentage point higher (7.75%) than the current rate:

	1% Decrease in	Current Discount	1% Increase in
	Discount Rate	Rate	Discount Rate
City's NPL	\$73,192,373	\$38,510,136	\$10,723,136

# Pension Plan Fiduciary Net Position-

Detailed information about the pension plan's Fiduciary Net Position is available in a separately issued TMRS financial report. The report may be obtained online at <a href="https://www.tmrs.com">www.tmrs.com</a>.

# Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions –

For the year ended September 30, 2016, the City recognized pension expense of \$11,735,473.

The City reported deferred outflows and inflows of resources related to pensions from the following sources:

	Deferred	Deferred
	Outflows of	Inflows of
	Resources	Resources
Differences between expected and		_
actual experience	\$ -	\$(1,430,176)
Changes in actuarial assumptions used	-	(1,256,816)
Difference between projected and actual		
investments earnings	8,475,911	-
Contributions subsequent to the		
measurement date	7,555,287	
Total	\$16,031,198	\$(2,686,992)

Deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date of \$7,555,287 will be recognized as a reduction of the net pension liability for measurement year ending December 31, 2016 (i.e. recognized in the City's financial statements September 30, 2017). Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Measurement Year	At December 31
2016	\$1,754,732
2017	1,754,732
2018	1,754,732
2019	1,445,779
2020	(441,484)
Thereafter	<u>(479,573)</u>
Total	<u>\$5,788,918</u>

#### NOTE 12. RISK MANAGEMENT

The City is exposed to various risk of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters. The City is a participant in the Texas Municipal League Workers' Compensation Joint Insurance Fund (WC Fund) and the Texas Municipal League Joint Self-Insurance Fund (Property-Liability Fund), a public entity risk pool operated by the Texas Municipal League Board for the benefit of individual governmental units located within Texas. The government pays an annual premium to the Funds for its workers' compensation and property and liability insurance coverage. The WC Fund and Property-Liability Fund are considered self-sustaining risk pools that provide overage for its members for up to \$1,000,000 per event, and \$2,000,000 in aggregate. There were no significant reductions in insurance coverage from the previous year. Settled claims for risk have not exceeded insurance coverage for the past three years.

During FY 2016, the City participated in a modified self-insurance program for Employee Benefits. Group medical benefits were administered by a third party insurance provider. The City offers two PPO plans with payroll deductions set aside to cover the monthly claims. The annually negotiated stop loss provision for 2016 was \$150,000 per occurrence.

The liabilities for insurance claims reported are based on GASB Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. These liabilities include an estimate for incurred but not reported claims. The estimated claims incurred but not reported as of September 30, 2016 totaled \$1,976,896, which are recorded as a liability in the General Fund Accounts Payable. Changes in the liability amount:

	Liability Beginning of	Current Year Claims and Changes	Claim	Liability End of
Claim Year	Year	In Estimates	<b>Payments</b>	Year
2014 - Health Insurance	1,342,364	11,153,236	11,107,200	1,388,400
2015 - Health Insurance	1,388,400	11,592,196	11,409,851	1,570,745
2016 - Health Insurance	1,570,745	10,646,058	10,239,907	1,976,896

# NOTE 13. <u>INTERFUND RECEIVABLES AND PAYABLES</u>

All interfund receivables and payable are considered short-term and, at September 30, 2016 consisted of the following:

<u>Due From</u>			
		Non-major	
Due to	General Fund	Governmental	Total
General Fund	\$ -	\$ 80,348	\$ 80,348
Non-Major			
Governmental	6,134	=	6,134
Total	\$ 6,134	\$ 80,348	\$ 86,482

All balances resulted from the time lag between the dates that transactions are recorded in the accounting system and that payments between funds are made.

The City reports interfund transfers between many of its funds. The sum of all transfers presented in the table agrees with the sum of interfund transfers presented in the governmental and proprietary fund financial statements.

<u>Transfers From</u>						
Transfers to	General Fund	TIRZ	Capital Projects	Non-major Governmental	Proprietary and Non-major Proprietary	Total
General Fund	\$ -	\$ 730,708	\$ 51,372	\$ 144,000	\$ 613,000	\$ 1,539,080

G&A Stormwater Drainage	General Fund	100,000
G&A Environmental Services	Utility Fund	222,822
Capital outlay funding	Capital Projects	1,000,000
Total		<u>\$29,338,255</u>

#### NOTE 14. OPERATING LEASE COMMITMENTS

The City entered into rental agreements in excess of one year during prior fiscal years. During fiscal year 2016, the City entered into additional agreement in excess of one year. The following commitments remain:

FY	At September 30		
2017	\$ 166,816	_	
2018	66,893		
2019	13,901		

Rent paid under operating leases was approximately \$167,775 for the year ended September 30, 2016.

#### NOTE 15. CONTINGENT LIABILITIES

The City has participated in a number of state and federally assisted grant programs. These programs are subject to program compliance audits and adjustments by the grantor agencies or their representatives. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. Any liability for reimbursement which may arise as the result of these audits is not believed to be material.

In June 2006, the North Texas Municipal Water District issued \$35,235,000 in revenue bonds, series 2006. This bond issue is for the purpose of constructing the Panther Creek Wastewater System benefiting the City of Frisco. In March 2009, an additional \$20,210,000 in revenue bonds, series 2009 was issued for expansion of the system. In 2014, an additional bond issue refunded a portion of the 2006 revenue bonds. The outstanding principal of the revenue bonds at September 30, 2016 is \$34,840,000. The City's contractual minimum payment is required to cover the full cost of the service including the principal and interest payments incurred related to this debt. The City of Frisco is in compliance with this agreement at September 30, 2016.

#### NOTE 16. LITIGATION

The City is party to several legal actions arising in the ordinary course of business. In the opinion of the City's management, the City has adequate legal defense and/or insurance coverage regarding each of these actions and does not believe that they will materially affect the City's operations or financial position.

#### NOTE 17. OTHER POSTEMPLOYMENT BENEFITS

The City does not provide postretirement health or dental care benefits to retirees. We do provide a plan that retirees can purchase through age 65, but they are responsible for 100% of the premium costs and this plan is not part of the City's active employee plan. The City incurs no cost for providing these benefits, as

retirees are included in a separate risk pool, there is no direct or implicit rate subsidy and the City has no measurable OPEB liability.

#### NOTE 18. COMPONENT UNIT REMEDIATION OBLIGATIONS

During FY 2012, the FEDC and FCDC entered into agreements with a local manufacturing company to purchase land surrounding a plant that is being closed. Revenue bonds were sold and have been placed in escrow with the third party. Remediation funds have also been placed in escrow with the third party to cover the costs of clean up for the land surrounding the plant that the City component units are planning to purchase. Consultants were hired to estimate the remediation costs, which have been accrued based on cash flow estimates.

#### NON-MAJOR GOVERNMENTAL FUNDS

#### **Special Revenue Funds**

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

**Hotel/Motel Tax Fund** - This fund is used to account for revenues specifically restricted to encourage tourism, historical preservation and promote the City of Frisco.

Panther Creek Public Improvement District (PID) - This fund was established to account for assessments charged to property owners of the Panther Creek Estates.

**Superdrome Fund -** This fund is used to account for activities of the facilities used for hosting local bicycling races.

**Grants Fund -** This fund is established to account for grants awarded to the City of Frisco in the governmental funds.

**CDBG Fund -** This fund was created to account for the Community Development Block Grant program revenues and expenditures.

**Traffic Control Enforcement Fund -** This fund was established to account for the automated red light enforcement system implemented by the City.

**TIRZ #5 -** This fund was established to account for the property taxes and sales taxes collected within the tax increment reinvestment zone #5.

**Frisco Square Municipal Management District (MMD) -** This fund was established to account for assessments and transactions related to the Frisco Square District.

**Court Fees Fund -** This fund was established to account for special fees collected in the Municipal Court including the technology fees, building security fees and court improvement fees.

**PEG Cable Fund -** This fund was established to account for franchise fees collected for the Public Educational & Governmental Television production.

#### **Capital Projects Funds**

**Road Impact Fees Fund -** This fund accounts for the collection of impact fees, which are transferred to the Capital Projects Fund or Debt Service Fund as needed to fund infrastructure.

Park Development Fees Fund - This fund accounts for the collection of park dedication fees, which are transferred to the Capital Projects Fund as needed to fund park development and infrastructure.

Fund balances, ending	\$ 102,468,651	\$ 95,712,519	\$ 15,589	\$ 198,196,759

#### **Reconciliation of the Combining Balance Sheet of Component Units** to the Statement of Net Position September 30, 2016

Amounts reported for component unit activities in the statement of position are different because:

Total fund balances per balance sheet	\$	198,196,759
---------------------------------------	----	-------------

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

84.294.358

Deferred outflow of resources are not financial resources and, therefore, are not reported in the funds.

1,510,829

Other assets are not available to pay for current-period expenditures

540,000

Some long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds. Those liabilities consist of:

Bonds payable	124,862,287
Notes payable	92,016,276
Accrued interest payable	806,355
Compensated absences	169,260
Net pension liability	770,203

(218,624,381) Total long-term liabilities

Deferred outflow of resources are not financial resources and, therefore, are not reported in the funds

(53,738)

65,863,827 Total net position - component units

#### Reconciliation of the Combining Statement of Revenues, **Expenditures, and Changes in Fund Balances of Component Units** to the Statement of Activities For the Year Ended September 30, 2016

Amounts reported for component units in the statement of activities are different because:

Net change in fund balances - total component units 43,782,285

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period.

(1,900,853)

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

(25,078,433)

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

(89,326)

16,713,673 Change in net position of component units

### **STATISTICAL SECTION**

### STATISTICAL SECTION

This part of the City of Frisco's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Contents		Page
Financial Trer	nds These schedules contain trend information to help the reader understand how the government's financial performance and well- being have changed over time.	136
Revenue Cap	acity	144
	These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.	
Debt Capacity		154
	These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.	
Demographic	and Economic Information	160
	These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.	
Operating Info		162
	These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.
